

Leverage Your Existing Asset Data For Maximum Benefit

[Configure Consulting Inc.](#) invites you to attend the “**Leverage Your Existing Asset Data For Maximum Benefit**” webinar on Wednesday, June 5th, 2013 at 1:00 pm EDT.

1-hour program of the event includes:

1. Benefits of leveraging existing investment in HP Asset Manager to help streamline lifecycle asset management processes
2. How using Asset Manager modules can enhance an existing implementation of ITAM:
 - Enable smarter buying decision making using HPAM Procurement Management module
 - Increase visibility into hardware and software utilization using HPAM Portfolio and Financial Management modules
 - Reduce costs in software license and contract management service fees using HPAM Software Asset and Contract Management modules
3. What options can help to take advantage of your existing asset data and asset management tools
4. Questions and answers

Scheduled Presenter:

La Ron K. Jenkins – Senior Consultant - IT Asset Management, Configure Consulting Inc., HP ExpertOne certified specialist, successfully implemented Asset Management solutions in different fields including banking, pharmaceutical and financial, has developed a deep understanding across the HP BTO Suite including HP Asset Manager, Connect-It, DDMi and UCMDB/Discover.

For any additional information please contact Jeff Turek at 1-877-246-3944 or jeff@configureconsulting.com.

Date and Time:

Wednesday, June 5, 2013, 1:00-2:00 PM EDT
