

IT Asset Management Solution

Cost efficiency and improved IT management

Overview

Organizations are increasingly under pressure to lower IT service costs, increase service levels, ensure software license compliance, and improve visibility into financial and operational decisions. IT Departments must learn to “do more with less” and take full advantage of the existing asset data and tools already on hand. Leverage Configure Consulting’s quick-start IT Asset Management package to better manage inventory, corporate chargebacks, software license compliance and more.

Quick-start Pricing*

- \$50,000 Software
