

Instant CMDB

Accurate visibility into your IT Infrastructure

Overview

Accurate visibility of IT infrastructure is a challenge that many organizations face. Knowing the actual state of your environment is a critical component in being able to remediate incidents, understand dependencies, enforce policies, and monitor applications. Leverage our Instant CMDB Solution to quickly discover your organization's IT infrastructure attributes and dependency relationships.

Quick-start Implementation - 5 weeks

Configure Consulting has packaged quick-start implementations that are targeted to deliver quick, powerful value within a focused subset of the IT environment. The emphasis is on building a strong foundation, and demonstrating meaningful results that can later be scaled out enterprise-wide. The 5-week implementation process includes:

- Project initiation & planning
- Requirements validation
- Installation & Configuration
- Initiation of Automatic Discovery
- Gold Master Reporting
- Change History Tracking Reporting
- Inventory Reporting
- Establish discovery schedule
- Documentation
- Project Close-out
