

# Topological Policy, Audit & Compliance

## Enforce IT policy across applications

### Overview

Organizations are mandated to ensure IT compliance with an ever-growing number of internal and regulatory requirements. Standardizing IT configurations, streamlining visibility and automating alerts can reduce time and costs associated with remediating compliance breaches. Leverage the TPAC solution to quickly report on SOX, PCI, HIPAA and other compliance requirements.

### Quick-start Pricing

- \$50,000 Software
- + Professional Services

### ROI

- Enforce regulatory compliance for PCI, SOX, HIPAA and more
- Simplify reporting and enforcement of internal IT Policies
- Visualize policy status by compliancy standards
- Report policy status by business units
- Report on your organization's IT standards violations
- Leverage auto discovery to continuously monitor compliance
- Establish topological baseline policies for disaster recovery
- Track and report on configuration drift

### Scope

- 100 Nodes/OSIs
- 5 Topological Policies

### Quick-start Implementation - 5 weeks

Configure Consulting has packaged quick-start implementations that are targeted to deliver quick, powerful value within a focused subset of the IT environment. The emphasis is on building a strong foundation, and demonstrating meaningful results that can later be scaled out enterprise-wide. The 5-week implementation process includes:

- Project initiation & planning
- Requirements validation
- Installation & Configuration
- Initiation of Automatic Discovery
- Policy Configuration
- Baseline Configuration
- Reporting and Dashboard
- Documentation
- Project Close-out

### Included Software

- HP UCMDB
- HP CM
