

# Rapid Discovery as a Service

**Hewlett Packard**  
Enterprise

# Challenge Us

---

**Are our results  
TOO good?**

**Give us 24 hours,  
and we will  
surprise you with  
what we can do!**

# Rapid Discovery as a Service

## Close The Gap

What you **THINK** you know  
about your IT infrastructure

The **REALITY** of your  
IT infrastructure

# Rapid Discovery as a Service

## Auditing

- Produce accurate, reliable reports on disparate data types
- Critical to track changes and understand usage
- Avoid fines and penalties through confirmed counts
- Ability to check environments ad hoc or scheduled times

## Benefits of Automated Discovery

- Inventory Reporting
- Change Tracking
  - Attributes
  - Relationships
- Compliance
- Gold Master Report
- Impact Analysis
- Snapshots

# Rapid Discovery as a Service

The image displays three sequential screenshots of a discovery tool interface, illustrating the process of running a discovery job. The first screenshot shows the 'CI Types' list with 'ConfigurationItem (0)' highlighted. The second screenshot shows the 'Zone-Based Discovery' job running, with a context menu open over 'MySQL by Shell'. The third screenshot shows the results of the discovery, with 'ConfigurationItem (10082)' highlighted in the 'CI Types' list. Red arrows indicate the flow from the first to the second, and then to the third. Red boxes highlight the 'ConfigurationItem' in the first and third screenshots, and the 'ConfigurationItem (10082)' in the third screenshot. A red box at the bottom right of the third screenshot shows the time 11:52 AM on 8/12/2015.

Elapsed Time – Approximately **one hour!**

# ROI

## Service Summary

- Day-1 Results
- Distinct Data Consumption
- Customized for Your Use-Case
- Off-The-Shelf Hardware
- Flexible Term Licensing

## End-of-Term Leverage

- Can Extend Term License
- Expand to Full uCMDB Solution
- Single-Source-of-Truth
- Application Onboarding
