

Event Correlation & Auto Remediation

Hewlett Packard
Enterprise

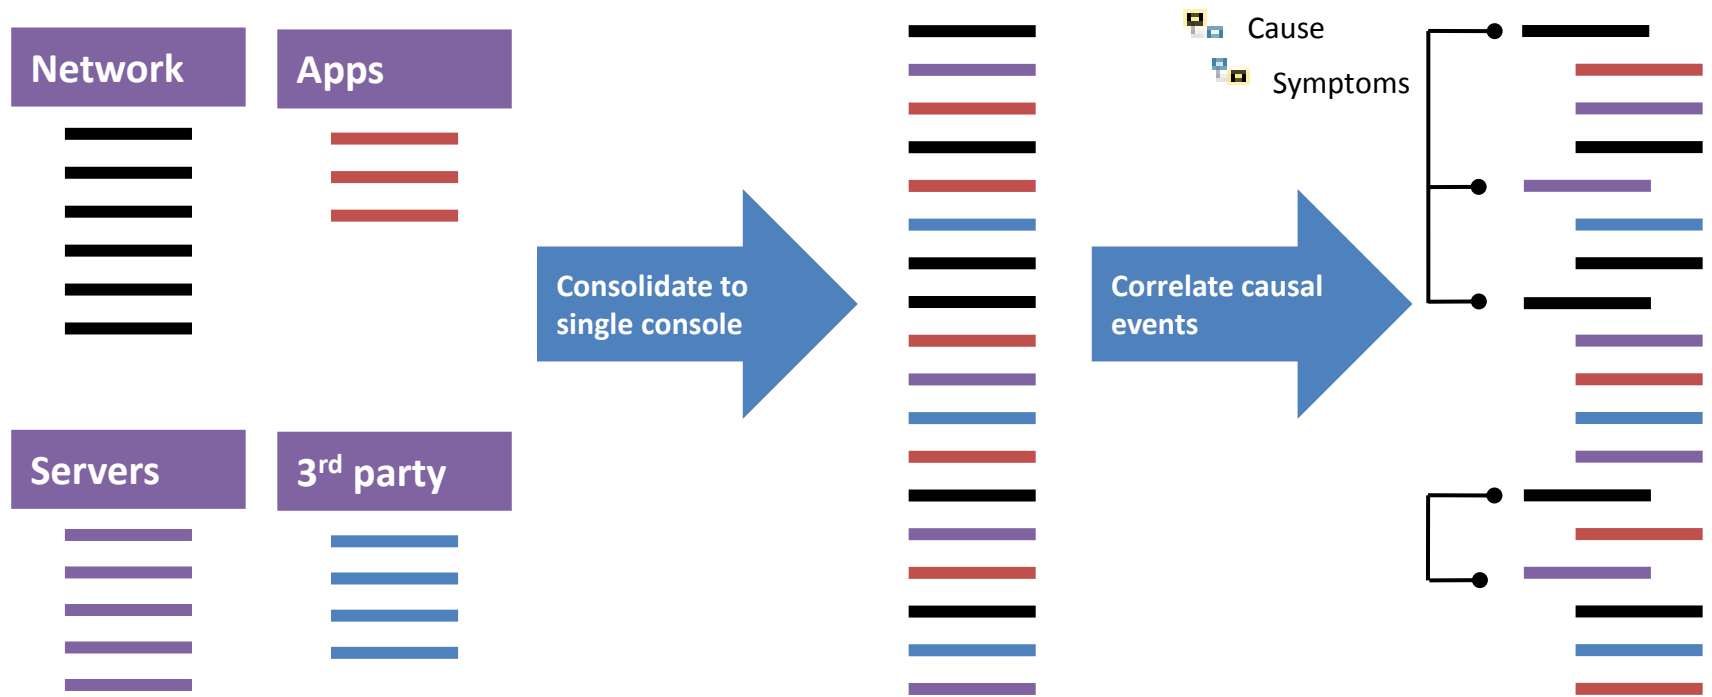

Manager of Managers

Consolidate Performance Metrics, Events & Topology Into a Single Pane of Glass

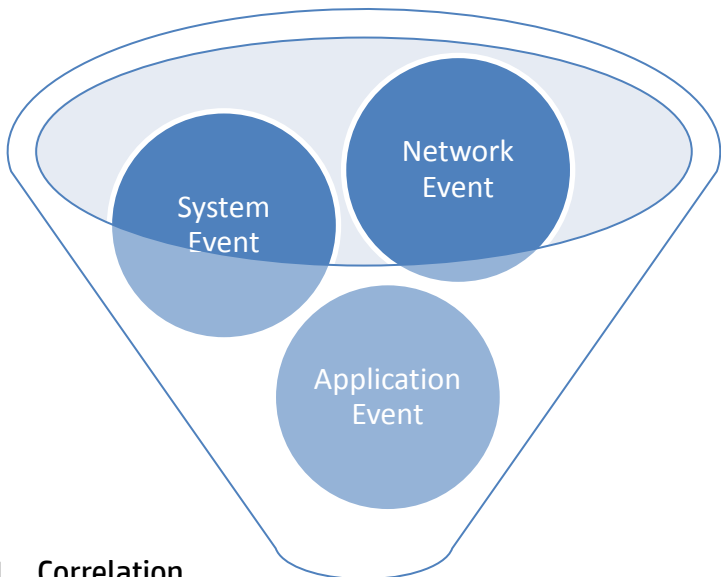

Event Correlation

Topology and Stream-Based event correlation reduces MTTR and helps identify root cause

Automatic Remediation

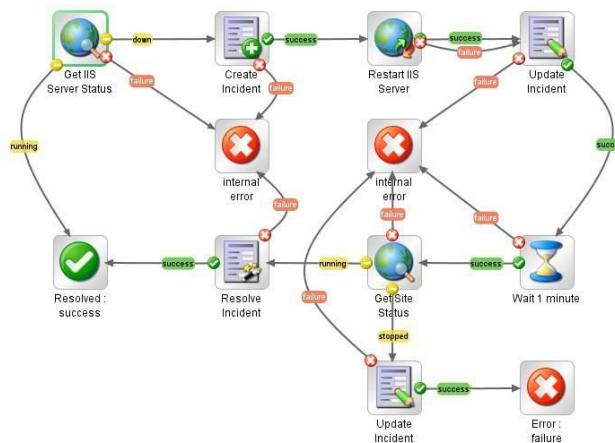

Raw Events

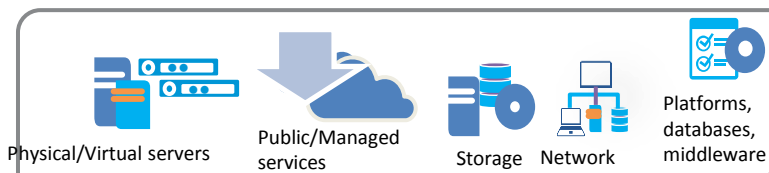

1. Correlation
2. De-duplication
3. Prioritization

Repair in seconds

- Automatic-actions to fix common problems
- Automate advanced troubleshooting
- Corrective actions using complex work flows
- Audit Trail

Dashboards

Customizable Operator and Management Dashboards in a Single Pane of Glass

The screenshot displays the HP Operations Manager i interface, featuring a top navigation bar with 'Workspaces', 'Administration', and a search bar. The main content area is divided into several sections:

- Operator Watch List:** Includes 'Events History' (a bar chart), 'All Unresolved Events' (4 Critical, 1 Minor, 161 Warning, 219 Normal), and 'All Unassigned Events' (1 Minor, 160 Warning, 219 Normal). Below these are four donut charts for 'SharePoint Service', 'CRM Service', 'Mail Service', and 'Advantage Premium Banki...'.
- Event Browser for Advantage Premium Banking View:** A table listing events with columns for Severity, Priority, Category, Title, Related CI, and User. The table shows various events related to 'Advantage Banking Premium' and 'premium_account_money_transfer'.
- KPI Over Time:** A timeline view for 'Business Impact' from Wednesday, May 20, 03:05 to Wednesday, May 27, 03:05.
- Status by Configuration Item:** A grid showing the status of various configuration items, including 'Advantage Banking Premium', 'Advantage Premium Banking Services', and 'premium_account_money_transfer_from_saving_to_checking'. The grid uses green for OK and red for Critical/Warning.
- Event Details:** A detailed view of a specific event: 'premium_account_money_transfer_from_saving_to_checking:Synthetic User Transaction Performance status changed from Minor to Critical'. It includes fields for ID, Severity (Critical), Priority (Medium), Assigned User (Danny), and Time Received (5/27/15 02:03:21 AM).
